SPRINGFIELD

West Springfield, Longmeadow
Chicopee

DIRECTORY

1946

Combining Five Distinct Directories:—

Governmental Directory—City, County, State and Federal.
Buyers Directory—A local source of sales and service.
Classified Directory—Business, professional and social.
Alphabetical Directory—Names, occupations and addresses.
Numerical Directory—Streets, householders and business.

Price

$19.00

COPYRIGHT 1946 THE PRICE & LEE CO.

SECTION 28, COPYRIGHT LAW.
IN FORCE JULY 1, 1909.

That any person who willfully and for profit shall infringe any copyright secured by this act, or who shall knowingly or willfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars nor more than one thousand dollars, or both, in the discretion of the court.

PUBLISHERS' NOTE.

The information in this book is gathered as far as possible by actual canvass, and is compiled in a way to ensure maximum accuracy. The publishers cannot, of course, guarantee the correctness of information furnished them nor the complete absence of mistakes, hence no responsibility for errors or omissions can be assumed, but we will welcome the bringing to our attention of any inaccuracies so that correction may be made in the next Directory.

A SUMMARY

Suggested and Planned by American Community Advertising Association
Adopted as a regular feature in all directories published by the Association of North American Directory Publishers
Completed and corrected annually through the courtesy of the Springfield Chamber of Commerce

HAROLD D. LESLIE, *General Sec.*

Springfield, Mass.

"The City of Homes"

Form of Government

Bicameral.

Population

U. S. Census (1940) 149,554.
Estimate at present, 159,961.

White Population of Age

146,361.

Colored Population

3,144.

Number of all Males

72,246.

Number of all Females

77,308.

Predominating Nationalities of Foreign Born

Italian, French Canadian, Canadian, Irish, Polish, Russian, Scotch, English.

Area

31.90 square miles. Altitude 75 to 200 ft.

Average Temperature

51.4°

Rainfall

50.32″

Parks, Playgrounds and Land

73 with 2100 acres valued at $8,000,000.

Assessed Valuation

$251,846,015.00

Tax Rate

$33.50 per $1,000.

Bonded Debt

$9,833,000. Including water debt of $4,446,000 (Dec. 31, 1945).

Financial

Four commercial banks having trust companies with total deposits of $205,223,649; total resources of $224,600,992 on Dec. 31, 1945 and clearings of $258,105,721 for year 1945. Three savings banks with total deposits of $116,145,245 on Dec. 31, 1945.

Post Office Receipts

$1,906,722.88 for year ending Dec. 31, 1945.

Telephones

(Jan. 1, 1946)

59,994

Church Buildings

89 representing 19 denominations. Included in the 89 are 16 church "Undenominational."

Building Construction

1,627 building permits issued, valued at $5,860,502.00 with 484 new building permits valued at $1,759,161.00.

484 permits new buildings	$1,759,161
1,143 permits additions, alterations	4,101,341
1,627 total	$5,860,502

Radio Broadcasting Stations

WBZA; WSPR; WMAS.

Dwelling Units

42,800. (Jan. 1942).

Industrial

Chief industries of the city and surrounding territory (manufacturing); electrical machinery, apparatus and supplies; foundry and machine shop products; firearms; plastic materials, printing and publishing; envelopes, machine tools, motorcycles, matches, drop forgings, women's clothing, brass bronze and aluminum castings, knit goods, games and toys.

Number of establishments 319 employing 22,887 men and women, paying wages of $62,798,658 annually and having products valued at $241,188,533 annually as per report covering the year 1944. Principal manufactured products. (See Above.)

Trade (Retail and Wholesale)

Retail area has radius of 40 miles and population of 394,623. Wholesale area has radius of 40 miles and population of 394,623. (Springfield-Holyoke Metropolitan District)

Newspapers

Four daily. One Sunday. One weekly.

Hotels

Eighteen with total of 3,025 rooms. Newest hotel built in 1929.

Railroads

NY Central (Boston & Albany), Boston & Maine, New York, New Haven and Hartford.

Highways

Route No. 5 north to Canada and south to New York; Route No. 20 east to Boston, west to Albany; Route No. 57 connects Springfield with College Highway; Route No. 116 to Willimansett; Route No. 83 to Conn.

Airports

One in city; American Airlines serves Springfield at Barnes Airport in Westfield, 11 miles from city.

Amusements

Fourteen moving picture theatres seating 18,877. Municipal auditorium seating 3,218. One legitimate theatre seating 1,530.

Golf Courses

Eight, including two municipal.

Hospitals

Eight hospitals with 1,067 beds (includes Shriners, Isolation and City Hospitals).

Educational

American International College; Springfield College; Northeastern University and University Extension—Springfield Division. Public schools: 38 plus 3 senior high schools and 5 junior high schools. Number of parochial schools 11. Number of pupils in public schools 19,661; in parochial schools 4,256. Number of teachers in public schools 804; in parochials—not available. Value of public school property $13,525,453.11.

Public Libraries

Seven with a total of 505,722 volumes.

City Statistics

Total street mileage 389.02 with 238.06 miles paved and ¾ miles under construction. Miles of gas mains 529; of sewers (storm and sanitary) 315.5. Number of water meters 26,460; light meters 51,150 and gas meters 38,648 (city). Capacity of water works (municipal or private) 25,000,000,000 gallons with daily average consumption of 24,404,000 gallons, 362.73 miles of mains and plant valued at $18,448,824.37. Fire Department has 349 paid men, with 8 autos, 10 engines, 13 hose wagons and 9 hook-and-ladder trucks, 1 tower truck, 1 squad wagon, and 8 trucks, in 15 station houses. Value of fire department real estate and equipment, $1,460,316.62. Police department has 302 men, with 2 stations and 42 pieces of motor equipment, 20 automobiles and 22 motorcycles. Value of police department, $140,600.00.

THE CITY TODAY

Springfield, Massachusetts was settled in 1636, as a result of the efforts of William Pynchon and a band of faithful followers who sought the fertile valleys in this part of the country, for homesteading purposes. It was made a town May 14, 1636, O.S., and incorporated a city May 25, 1852.

The city has grown to a community having a population of 149,554. Springfield is 99 miles from Boston; 103 miles from Albany, New York, and 135 miles from New York City. Immediately surrounding Springfield are numerous smaller towns and cities, including among the first, West Springfield, Longmeadow, East Longmeadow, Wilbraham and Ludlow, and among the latter, Chicopee.

Springfield has, since the last part of the eighteenth century, been continuously developing as a manufacturing center, although surrounded by communities agricultural in character. The industry of the community is of varied quality. The skill of workmen to be found here has developed the popularity of the community as an industrial section for the manufacture

of many varied products. For the most part, raw materials and supplies are transported to the city. The location of the city nearly equidistant from the three large centers—Boston, Albany and New York—is an enviable one.

The rolling hills rising from the Connecticut River Valley provide for excellent residential sections.

The prevailing meteorological conditions give to Springfield typically New England seasons with charming summers and cold winters with some snow.

SERVICE INSTITUTIONS

Springfield is fortunate in having a group of public utility organizations which aid, and have for many years, in the development of the community. Under the municipality, there operates a Springfield Water Works the activities of which provide the community with excellent drinking water, piped to the city from the eastern foot-hills of the Berkshires. An excellent reservoir system practically doubling a previous capacity, and provides a maximum flow adequately to care for the city for many years to come.

The Springfield Gas Light Company produces gas for households at the rate of $1.00 for first 200 cu. ft., balance used at 11c per 100 cu. ft. For larger household users the minimum rate of $4.00 for first 3,000 cu. ft and balance at 8c per 100 cu. ft.. prevails. Industry is also served at varying rates. A net work of the piping of this corporation covers nearly the whole city, and is being rapidly extended. Automatic Equipment 200 ft. @ $1.00—1800 ft. @ 11c 8,000 ft. @ 7½c and 10,000 @ 7c.

The United Electric Light Company provides light and power on a combined flat rate and low energy charge.

Transportation facilities provided by the Springfield Street Railway Company afford excellent local and interurban transportation service. The newest type of buses are available for use.

Springfield has long been recognized as a community in which the educational facilities are of an unusually high standard. The public schools' program is most complete and leads the pupil through the primary grades and junior high schools into one of four high schools of excellent standing and character. In the first—the Classical High School the curriculum is of an essentially academic character, providing for the continuance of education in the academic colleges and universities. The second—the Technical High School—is fundamentally an engineering school and offers courses leading directly to industrial work or into the higher engineering colleges. The third—the High School of Commerce—prepares the pupil thoroughly for a business career and also for entering into a limited group of colleges. The fourth—the Springfield Trade School prepares the pupil for industrial employment.

Freight rates prevail for the shipment of raw materials and finished products into and from the city on a basis which permits our manufacturers to compete with others in similar lines in other parts of the country.

Springfield has dwelling units for 42,800 families and has long been known as a community of home lovers. The environment which has been created is a result of a mixed population, possessing many natural advantages and proving pleasing to all. There are many community civic organizations, each of which was definitely formed for the improvement of its part of the city.

CONSUMING POWER

Farm products valued at over $5,675,000 were raised in Hampden County in 1941 and consumed mostly in this area. $34,586,173 worth of stock and materials was used in our factories in 1939. Springfield is forced to import from outside all basic raw materials even to lumber and depends on its skilled labor and native ingenuity in fabrication to maintain its industrial supremacy. The normal consummation of a population of 149, 554 is augumented by at least 100,000 to include traveling men, attendants at conventions, schools, etc.

INDUSTRIAL SITUATION

The latest available statistics in Springfield show 309 establishments making as many different lines, paying wages of 54,029,132 employing 23,843 people and producing $219,-428,002 worth of products. Many of these factories manufacture products known the world

over and spread the fame of Springfield into all countries. Westinghouse Motors and Bosch Magnetos, Indian Motocycles, Smith & Wesson revolvers, Springfield rifle, Absorbine Junior liniment, Monsanto chemical products, and Milton Bradley games and toys are typical examples. Industry in Springfield is highly diversified though the manufacture of electrical goods and equipment slightly predominates in value all other lines. Skilled artisans can usually find steady employment in Springfield due to this condition.

Springfield is justly proud of its title, "The City of Homes," and well deserves it as there is a home for approximately every 3½ persons of population, and of those occupied about 30% are owned by the occupant. A recent survey showed that of 273 vacancies only 9 were classified as undesirable. This condition is maintained partly by the fact that due to diversity of industry the labor demand is steady. Abundance of water power in the valley has caused erection of enormous hydro-electric stations with the result that reasonable electrical rates prevail and practically all homes enjoy the use of electricity with all its advantages.

FINANCIAL SITUATION

Though having one of the lowest municipal tax rates in Massachusetts, Springfield has been continuously developing without unduly burdening the public and has a total outstanding bonded indebtedness of but $8,540,000 excluding water debt. Economy is the rule of Springfield's administration though large appropriations for permanent improvements are made yearly to keep pace with the schedule of the City Planning Board. Springfield has four commercial banks and trust companies and three savings banks; Additional banks: 2 Co-op., 1 Federal Land Bank. The total banking dept resources of these Springfield banks are $371,815,866, with clearings for 1943 of $235,388,574. Due to its being so accessibly located, Springfield was chosen as the logical location for the establishment in New England of the district branch of The Federal Farm Loan System.

RETAIL TRADE

While Springfield has a population of but 149,554 people, its retailers serve a territory containing 394,623 population. The two main department stores of Springfield do an annual business in excess of $10,000,000. The large proportion of merchandise carried in Springfield is of a quality nature as there are no great number of the so-called poorer class in Springfield. Seventy-six per cent of its inhabitants are native born.

WHOLESALE TRADE

Springfield is served north, east, south and west by trunk line railroads and it has consequently become a well-known jobbing center. Stocks carried in Springfield cover practically every well-known product manufactured in the United States applicable to the northern climate and are distributed over a radius of more than 50 miles.

CIVICS AND WELFARE

Of outstanding value is the work done by the City Planning Board through whose efforts a definite arrangement for the control of the future growth and development of the city is projected and maintained.

Hospital facilities are more than complete, for the community is fortunate in possessing four hospitals caring for general cases, two hospitals maintained particularly for the care of maternity cases; and one hospital for diseases requiring isolation, erected by the city at a total cost of approximately $750,000. Beautifully modern, a wing of the Springfield Hospital, erected at a cost of $2,500,000, was opened late in 1931. Springfield is fortunate also in being the home of the Shriner's Hospital for Crippled Children for the whole New England area. Medical and surgical treatment may be had from many physicians and surgeons of repute.

Health and sanitation are carefully guarded. Through our school system the health of the children is given more than adequate attention.

Springfield possesses every type of amusement and recreation offered in cities of its size —theaters, dancing salons, boating, canoeing, golfing, tennis—all of these are available. Supervised recreation for children is made possible through the very efficient work of the Springfield Park Department, through the agency of which are operated 72 public playgrounds, lands and parks covering more than 19 hundred acres.

CITY AS A CENTER

Springfield is the center to which tourists come over excellent highways, and through which they pass enroute to Maine, New Hampshire, Vermont, as well as to points of interest in Eastern Massachusetts.

Springfield is a trading center for a population estimated at 400,000. To the community are attracted these persons who seek adequate shopping facilities, excellent stores, fine restaurants and hotels.

The industrial prestige of the city has been developed as a result of the skill of its workers in mechanical trades. It is in a sense an agricultural base, for here are located the Eastern States Farmers' Exchange, the Hampden County Improvement League, and many other agencies working co-operatively for the development of agriculture throughout all of New England.

Springfield is the Western Gateway to New England, and the most easily accessible city in New England from points outside thereof. During 1944, 28,070 persons attended 81 conventions held in the city of Springfield. The Springfield Chamber of Commerce operates a Convention & Visitors Bureau which actively solicits convention business and renders a maximum of co-operation to convention groups meeting in this city.

ADVANTAGES AND CLAIMS

In the last analysis, Springfield is the only city in the area between Boston, Albany and New York that has developed in a balanced way along the lines of beauty, education, finance, industry, mercantile and recreation. It is a community to which persons come to visit and remain to live and prosper.

CITY AS A SERVICE CENTER

The Springfield Chamber of Commerce for more than forty years has functioned in a capacity as a counsel and guide not only to citizens of the community, but to those from other cities seeking information or advice about the city. It is ready to co-operate in every practicable way to assure interested persons that they will receive adequate and reliable information concerning the community and its activities.

"What You Should Know About Your City"

"The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government, and her needs. This knowledge develops, first, an intelligent interest; then, a sympathy; then, a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful; and finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

MUNICIPAL WATER WORKS.

The works are in charge of a board of Water Commissioners consisting of (Dudley B. Wallace, Chairman; Anthony P. McQuade and Mayor Daniel B. Brunton.) Leland G. Carlton, supt.; clerk and water registrar, Dennis F. Sweeney; Peter C. Karalekas, chief engineer. Office, (319) City Hall. Service Building and Yard, 71 Colton. Office hours 9 a.m. to 5 p.m. Saturdays 9 a.m. to 12 m. Telephones: (applications and information) 6-2711; (work and trouble calls, day or night) 2-5188. The supply of water is taken from the Little River watershed (situated principally in the towns of Blandford, Granville and Russell) and by means of the following storage structures:

	Capacity in Gallons.
Borden Brook Reservoir (impounding)	2,500,000,000
Cobble Mt. Reservoir (impounding)	22,225,000,000
Intake Reservoir (diverting)	40,600,000
Sedimentation Basin (before filtering)	38,700,000
Provin Mountain Reservoir (after filtering)	29,280,000
Total	24,833,580,000

The former supply from impounding reservoirs in Ludlow and Belchertown is also retained at present for towns of Ludlow and Wilbraham and for emergency uses, and with its storage capacity of 1,434,218,000 gallons make an aggregate capacity of 26,267,798,000 gallons.

Range of pressure on mains for day and night, as follows: Main street level, maximum, 147 pounds, average, 140 pounds. Hill section level maximum 87 pounds, average, 80 pounds.

The entire supply of city water to any premises is furnished by meter only and at meter rates; the necessary meters are installed by the water works at expense of the consumers for the initial cost of the meters and connections only.

The cost of ordinary care and repair of all meters is borne by the water works; the cost of unsual repairs (necessitated by freezing, hot water, etc.) due or attributable to any carelessness or neglect on the part of the consumer, will be charged to the consumer or owner.

METER RATES.

(Subject to all rules and regulations)

For each 100 Cubic feet (748 gallons) of water as registered or estimated for each independent premises the rates shall be as follows:

For the first 5,000 cubic feet or less per quarter, at 20 cents per 100 cubic feet (about 30 cents per 1,000 gallons).

For all excess over the first 5,000 feet per quarter, at 5 cents per 100 cubic feet (about 7 cents per 1,000 gallons).

Where the aggregated total use for one independent premises amounts to 750,000 cubic feet or more in any one quarter, the entire quantity will be charged at 5 cents per 100 cubic feet.

Subject to the following minimum quarterly charges:

(a) Single dwellings and double houses or blocks (of two or more ground-floor single tenement sections), each tenement not less than $2.00 per quarter.

(b) Tenement houses, apartment blocks, etc., each tenement or apartment not less than $1.50 per quarter.

(c) Business blocks, manufactories, and other industrial plants, elevators and motors, each bill for each independent premises, not less than $2.50 per quarter.

Special for Elevator Uses—Where the total or aggregated quantity for operating one or more elevators on each independent premises amounts to 33,000 cubic feet or more in any one quarter, and is metered and billed independently of all other uses, the entire quantity will be computed at 5 cents per 100 cubic feet; but no bill hereunder shall be rendered at less than $25.00 per quarter.

Business and industrial buildings of more than one section, and adjoining or adjacent buildings, under one independent owership as a plant (if not separated by a street or by any other buildings or premises under another ownership) may be considered as one independent premises, and as such, subject to the computing and billing of the foregoing meter rates. In all other cases the supply through each service and meter shall be computed and charged as separate and independent bills.

Each quarterly period will be computed and charged for independently of any other quarterly period and the rates therefore shall be paid accordingly.

When a meter from any cause fails to register the consumption of water the quantity shall be estimated and the charge made based upon the registration by the meter when in order or upon the registration for corresponding prior quarter or period.

Builders' Uses—Where water is to be used in the construction of ordinary framed buildings, or for small building operations where the use may be easily estimated, the meter installation may be temporarily deferred, as an accomodation to the owner or builder, until the completion or occupancy of the building, and a nominal estimated flat rate may be charged for builders use of water to the owner of the property who will be held responsible for such use and the payment of such charge.

The Water Registrar and the Supt. shall determine all cases where the foregoing provisions may apply, and each case shall be considered independently of any other, but no such estimated charge shall be less than $1.00.

Miscellaneous and Temporary Uses—In certain cases of miscellaneous and temporary uses of city water, where the quantity used may be small, the charge for same may be estimated instead of being shown by meter, at the discretion of the Water Registrar and the Supt.

The water Registrar shall have the right to require an advance desposit as security for the payment of water bills, when he shall consider it for the interest of the city to do so; such deposit not to exceed a year's minimum rate for the property to be supplied or a reasonable estimate of the probable annual amount of such bills.

All bills due the City on account of the Municipal water works shall be payable at the office of the City Collector, Room 137, Municipal Building, Court and Pynchon streets within twenty days after the same are rendered and become due.

Inquiries and claims for correction should be made at the office of the Water Registrar, Room 319, Municipal Building.

Delinquent water bills are a lien on real estate.

AN ADVERTISEMENT

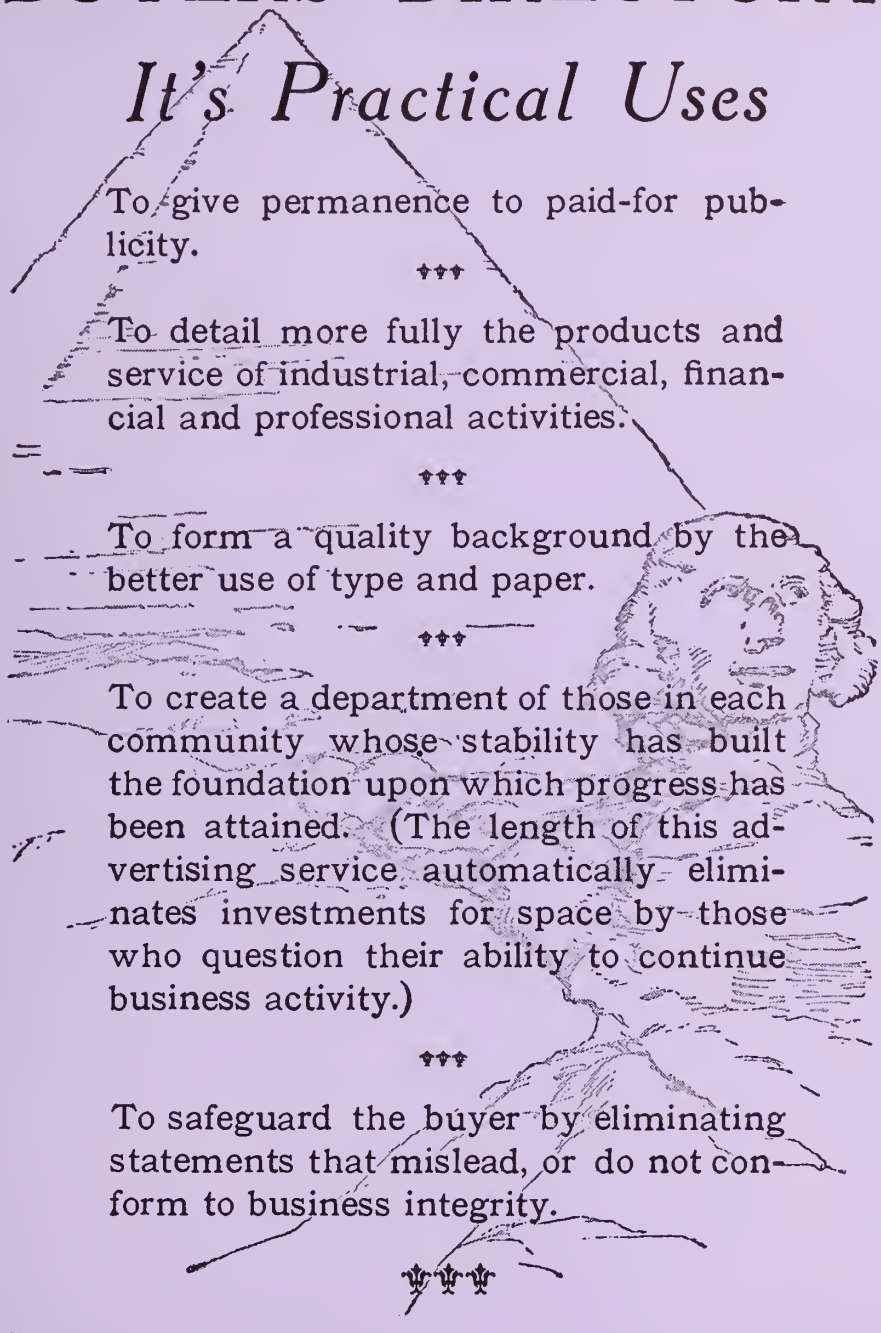
IN the **Directory** is as necessary as the sign over your door. **It keeps you** constantly before the Buying Public.

A GREAT CITY DIRECTORY ORGANIZATION SERVING

2,700,000 People in the most densely populated area in America

Annually, with a trained organization within these five states, serving one hundred and forty-one communities, each street and building is thoroughly canvassed for new names, changes and verification of prior information, after which by trained investigators, sections are again recanvassed to keep our name takers keyed up to a high degree of accuracy.

Through the process of sorting, compilation and still greater refining for accuracy, each name is handled twelve times as it becomes a part of the five departments when combined and printed into city directories, renders a service unsurpassed for those who know that without knowledge, activities become wasteful, confused and subject to duplication.



The PRICE & LEE COMPANY

Over Sixty Years Making Good Directories Better

NEW HAVEN SPRINGFIELD HARTFORD NEWARK

BUYERS' DIRECTORY

It's Practical Uses

To give permanence to paid-for publicity.

⚜⚜⚜

To detail more fully the products and service of industrial, commercial, financial and professional activities.

⚜⚜⚜

To form a quality background by the better use of type and paper.

⚜⚜⚜

To create a department of those in each community whose stability has built the foundation upon which progress has been attained. (The length of this advertising service automatically eliminates investments for space by those who question their ability to continue business activity.)

⚜⚜⚜

To safeguard the buyer by eliminating statements that mislead, or do not conform to business integrity.

FISHING IN THE RIGHT SPOT ?

Have you ever noticed a dejected fisherman sitting for hours, without even a nibble — and the small boy fifty feet away pulling in the big ones?

It's just a case of fishing in the right spot. The directory is the right spot for your advertising — it will produce the results — the big ones.

use your Directory - the **RIGHT SPOT**

BANKING SERVICE

A MUTUAL SAVINGS BANK

INCORPORATED 1852

Today there is one thought, one concept — SECURITY — No price appears too great to preserve it.

That is the way we have looked at it in safeguarding our depositors' savings. That is the kind of banking service we are offering to savers.

Our Record for Protection is a long one — over 94 years.

Here's a KEY to YOUR FUTURE

Yes — the 2½¢ ELECTRIC LIVING RATE is everyone's key to better living.

What is the 2½¢ ELECTRIC LIVING RATE? **It is the price you pay for electric service in your home for every kilowatt-hour over 65 that you use in a month.**

What does this mean to you in terms of *electric living?* At 2½¢, you can buy 200 kilowatt-hours of electricity for $5.00. And 200 kilowatt-hours is enough to cook electrically, to wash, dry and iron electrically, to keep foods in a deep freeze unit, and do a dozen other jobs around the house that add to your family's comfort and convenience.

This LOW COST electric service is indeed your key to better living. Why don't *you* plan to live electrically?

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

UNFAILING GAS SERVICE since 1848

Over 97 years of uninterrupted GAS SERVICE is the record of this company. Through 5 wars . . . through good times and bad . . . through storm and hurricane, our service to homes and to industry in the Greater Springfield Area has been constant and sure.

Today, we are ever mindful of our responsibilities to maintain the supply of GAS SERVICE at all times.

ESTATE PLANNING

The consistent acceptance of personal insurance, life, accident and health, by the insuring public is evidence that this protection meets basic human needs. Our organization is trained with a primary aim of meeting these basic needs and of viewing estate problems as a whole rather than considering only insurance factors.

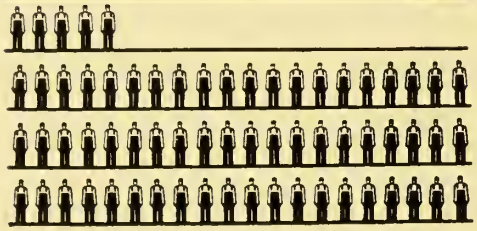
HOW MANY CHANGES IN A YEAR?



Out of every **100** People as listed in the last Directory

16% to **18%** Move away or die

17% to **19%** "New" people move into town or reach listing age.

(All that's left that's good)

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

Manufacturing Department

SPRINGFIELD PRODUCTS are known the world over. The following pages are an index to the wide range and variety, the kind and quality of manufactured articles produced in this great and growing city. As a distributing center for Western New England and Eastern New York, Springfield offers exceptional advantages. A live, progressive Chamber of Commerce, a large market of skilled labor, and splendid railroad facilities — insure progress, prosperity and publicity to the City of Homes. When doing business with concerns advertised in the following pages, please mention the City Directory

HISTORY...
TRADITION...
ACHIEVEMENT...

New Springfield Golf Clubs Feature . .

1. Two-Action (ACT-2-ION) Shaft.
2. Stainless Steel head.
3. Precision fitted hosel.
4. Shot Control grip.

All features combined in famous Springfield quality to bring you a truly New Adventure in golf.

Since 1913 this building, ideally situated in the heart of the New England manufacturing district, has been continuously devoted to the manufacture of the finest in sporting goods. Built and utilized by Victor Sporting Goods, a pioneer in the field, it was later occupied in 1917 by Wright & Ditson Victor Company. Thus in 1938, we, of SPORTING GOODS, INC., makers of fine soft balls, baseballs and golf clubs, were proud to acquire it . . . to carry on its tradition.

Unusually fine facilities and the best modern equipment help us turn out a product of the highest grade.

Skilled workmanship and the best materials are behind our complete line of soft balls, baseballs and golf clubs . . . every step in their construction is handled with care and attention to details that go into top quality.

A "Hit" on Diamonds Everywhere . . .

The Springfield Soft Ball line is enjoying nationwide popularity on diamonds everywhere — from the sandlot leagues to the big industrial leagues. The reason is in the quality of these soft balls . . . in their precision manufacture which is consistent with the entire line of products made by Sporting Goods, Inc.

It's the perfect sphere ball that counts!

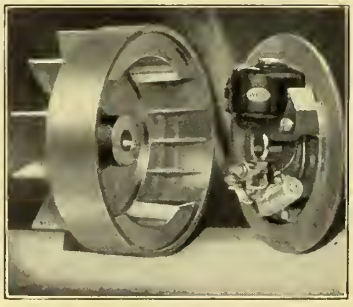
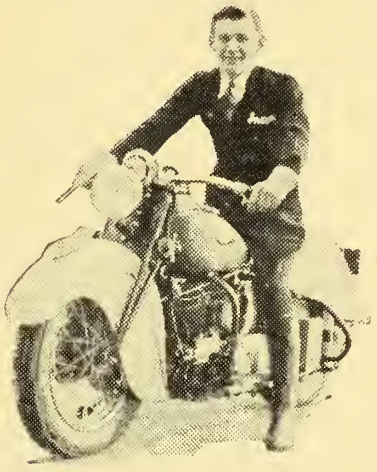
WICO MAGNETOS



THERE ARE SEVERAL DIFFERENT BASIC MODELS OF WICO MAGNETOS and hundreds of variations of these models. New models as well as new variations of old models are constantly being developed to meet the requirements of individual engine manufacturers. The magnetos pictured on this page are typical of those currently being used by industry, agriculture, and the armed forces.

SERVICE . . . WHERE AND WHEN NEEDED . . . is always important for any highly technical piece of mechanical equipment. In times like these it is vitally so. Today, virtually all new Wico magnetos go into military combat service. It is of major consideration, therefore, to farmers and all civilians that nearby service be available for maintenance of present equipment. That is why the far-flung Wico service organization is now of greater importance than ever.



Service men are supplied up-to-the-minute information on technical service procedure through frequent and regular distribution of bulletins and supplements to Wico's carefully prepared Master Service Manual.

A Directory of all authorized Wico Service Stations will gladly be sent on request.

WICO ELECTRIC COMPANY

WEST SPRINGFIELD, MASSACHUSETTS

AMERICA'S PIONEER MOTORCYCLE

Product of one of Springfield's first industries, a continuing development of major improvements since 1901 has kept Indian motorcycles "first" in the motorcycle field. With brilliantly powerful engines, streamlined design unapproached by others, and exclusive "Spring Frame" riding ease and comfort, Indian brings to rider sportsmen all the thrills of the open road . . . makes motorcycling an even greater and more economical travel pleasure.

As the first police vehicle, Indian motorcycles have served Police departments since 1905. A modern steed of unmatched performance, Indian police motorcycles are the ready servant of the motorcycle officer, providing the mobility needed to handle today's traffic problems.

For business and industry, the economy in operation of Indian motorcycles has been re-emphasized during recent years. With the accent on conservation Indian sidecars and side-vans units built during wartimes under War Production Board Authority maintain prompt delivery of essential materials.

Serving the Armed Forces, Indian has supplied motorcycle equipment for all of the Allies . . . and in addition, a number of key assemblies for Aircraft and Ordnance.

Meanwhile, Indian progress continues with new motorcycles to come that will uphold Indian's traditions as "America's Pioneer Motorcycle".

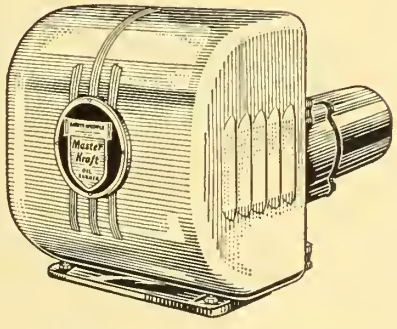
Master Kraft

OIL BURNERS, BOILERS

AND

AIR CONDITIONERS

Designed and Manufactured in Springfield



The new Master Kraft Sun-Blaze Boiler Unit—*only a third the size* of prewar units of equal heating capacity.

Here is tomorrow's oil-heating equipment — available *today.*

The makers of Master Kraft have designed an entirely new line of conversion burners to fit your present furnace—and new boiler units to replace your present furnace or boiler.

These new oil heating creations offer efficiency and economy far ahead of prewar types of oil heating equipment —will be available as fast as materials can be obtained for manufacture.

The new postwar Master Kraft conversion oil burner offers a new high in oil burner economy of operation.

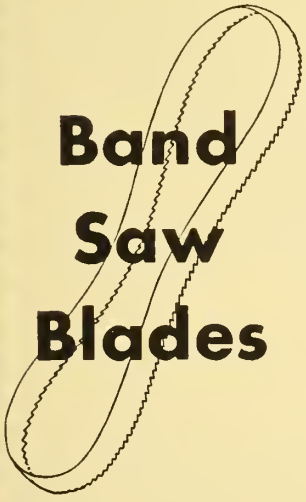
OF

METAL CUTTING SAWS



Hack Saw Blades

Hackmaster — UNBREAKABLE HAND BLADES — made of Molybdenum High Speed Steel — backs toughened so as to give them flexibility, and teeth edges hardened for durability.

High Speed — Genuine 18-4-1 High Speed Steel Hand and Power Blades, possess excellent cutting properties, great wearing and abrasive resistance qualities.

Mo-Speed — Hand and Power sizes. Molybdenum High Speed Steel Hack Saws — have unusual toughness in relation to their hardness, keen cutting edges, high efficiency.

Standard BLADES, hand sizes, the ordinary grade of hack saws made better. Can be furnished in the solid all hard type or the hard edge flexible back style.

Band Saw Blades

Hard Edge Flexible Back — our special heat-treating method tempers only saw teeth, producing an unusually hard cutting edge — used for hard and soft steels and non-ferrous metals.

Diemaster Narrow Metal Band Saw Blades in 100 foot coils for use on Do-All, Grob, Tannewitz and other band sawing machines — for accurate contour work and straight cutting. Packaged in our Safety Box.

Skip-a-Tooth — file-hard teeth designed with extra long gullet — ideal for soft sticky metals, hard and soft woods, plastics, and like material.

Wood Cutting BAND SAWS — Saws which retain their keen edge longer — give more cuts per saw — cut straighter and last longer than the ordinary Wood Band Saw.

THE OLD "SQUARE RIG" DAY'S ARE GONE!

The old square rig days meant proper trimming of sails and the correct tack—otherwise disaster. Get rid of your "square rig" advertising—try the Directory—referred to by thousands, your ad will stay on its course.

Complete Mailadvertising Service

LET US MULTIGRAPH IT!

A weekly bulletin to your sales force—multigraphed, of course—is an ideal and inexpensive way to keep every man happy and "hitting the ball."

Letters, sales, service and factory forms—in fact anything you wish duplicated in quantities—given the kind attention which brings you back again and again.

FISHING IN THE RIGHT SPOT ?

Have you ever noticed a dejected fisherman sitting for hours, without even a nibble — and the small boy fifty feet away pulling in the big ones?

It's just a case of fishing in the right spot. The directory is the right spot for your advertising — it will produce the results — the big ones.

use your Directory-the ***RIGHT SPOT***

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out

WHAT IS A REALTOR?

"REALTOR" is the name adopted by the National Association of Real Estate Boards as describing an active member of any one of the more than five hundred Boards in this country that are affiliated with the National Association, and have subscribed to the Association's "CODE OF ETHICS." The Courts have upheld the claim that this title cannot be used by anyone who is not a member of such a Board. Therefore, this term, used instead of "REAL ESTATE AGENT" is becoming increasingly known throughout the country as a synonym for correct methods of transacting the real estate business.

FIND THAT ADDRESS *Quick . . .*

"Chicago is on the wire –they want Bill Smith's address–quick". And in a matter of seconds the address is located in the Directory.

YOU WILL FIND IT IN THE

DIRECTORY

CLASSIFIED DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to any firm or individual in business, classified according to their business or profession.

Information—as to Associations, Clubs and Societies, when and where they meet and the name and address of their secretary.

Information—as to Churches, their location and pastor together with the pastor's address.

Information—as to where to obtain a list of prospects for your products or service.

Information—as to where to obtain any service that your community has to give.

Information—as to where to buy advantageously when competitive bids are required for any given service or product.

—Finally—

If your neighbor has it to sell, give him your business.

Like consideration from your neighbor adds prosperity to ***both.***

Additional wall maps of the same city when combined with original order are subject to a 10% discount.

We are in a position to furnish quotations on steel containers with spring roller or specially mounted maps on heavy paper board, suitable for map tacks.

Our maps are corrected annually by city engineers also by personal investigation by our canvassers who verify each street and report additions.

ALPHABETICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to the complete name of each person over nineteen years of age, or any person employed.

Information—as to the occupation of each person over nineteen years of age, or any person employed.

Information—as to the address of each person over nineteen years of age, or any person employed.

Information—as to the nature and activities of firms and partnerships.

Information—as to names of each member of firms and partnerships.

Information—as to the names of corporations, their nature and activity.

Information—as to the correct spelling of each and every name.

Information—as to whether a person is a "householder" (h) or "resides with" (r).

Information—as to what is the wife's name of each married man.

Information—as to what was the husband's name of each widow.

Information—as to the location of removals from city.

Information—as to the age and date of death of persons appearing in the preceding directory.

Information—as to those seeking prominence and prestige by display type.

—Finally—

Our Ideal

"If it has a name and location—it's here"
